

Pattern 2 - Defelct Double Weave Stripes

Here's how:

Number of ends: 324 (plus double floating selvedge on each side)

Sett: 16epcm (40epi)

Warp length: 5m (196ins)

Width in the loom: 20cm (8ins)

Finished size: 4.6m x 19cm (181 x 7½ ins)

Weave structure: Double deflect

Warping and Weaving

Wind the warp in the colour sequence of four threads grey followed by four threads red.

Weave in the colour sequence eight grey followed by eight red.

Hint: Always go over the floating selvedge when taking the shuttle in and under on the way out – except for the **first row** of each red section – go under both floating selvedges - on the way in and the way out.
